MBA PROGRAM HIGHLIGHTS

1988

Establishment of the "Department of Industrial and Management Engineering" after an elaborate need-demand analysis for the requirement of the industry

2001

The establishment of the MBA Program focused on the unique brand of techno-management

RANK 23rd

MBA Program ranked 23rd by MHRD, India's NIRF Management Institute Rankings

23+

Years of the program mentoring individuals in the areas of Finance, Marketing, Consulting, Analytics, Operations and Human Resources

450+

MBA Program alumni in respectable positions across various industries

The Department of Management Sciences (DoMS) was established with the aim to combine the strength of technology and management. This synergy is the bedrock of all DoMS Programs- MBA, M.Tech and PHD. Keeping up with this tradition of innovation, the 2-year MBA Program aims at creating business leaders and entrepreneurs by leveraging its strength on technology, computing and social sciences.

PK Kelkar Library, rated among some of the best university libraries of the world has about 4.5 lakh books in addition to about 1500 periodicals and journals. CURRICULUM

FINANCE

MBA at IIT Kanpur offers various courses in the domain of finance to help students to get an understanding of the future of money and markets. The program is designed to enable students to straddle the fields of management with its applications in the areas of banking, finance and insurance, who'll be in great demand by banks, wealth management entities, brokerage firms, etc.

MARKETING

MBA at IIT Kanpur opens up a plethora of opportunities for graduates in the field of marketing. The program helps students gain skills to create or be part of a customer-centric market. Students gain cutting-edge insights about various aspects of marketing like advertising, analytics, consumer behavior, marketing research and social media, which equip them to adapt to and handle the ever-changing and ever-evolving needs of the market and consumers.

IT & ANALYTICS

Business Analytics students are in high demand as organizations strive to reach their goals with data-driven decision-making and strategies. Analytics is a rapidly changing industry in the modern world, leading to a competency gap in today's professionals. MBA at IIT Kanpur addresses the issue by honing the students' skills with competitive real-life cases and projects to work on.

CURRICULUM

GENERAL MANAGEMENT

Working professionals today are expected to deliver quicker results while managing various business processes across multiple departments. It is imperative that one gains an in-depth understanding of the workings of business across disciplines. MBA at IIT Kanpur prepares one for the same with a flexible structure to explore various interests and disciplines. Students are made industry-ready in theory and practice with a project and case-focused approach.

HUMAN RESOURCES

Organizations today face the challenge of acquiring, training, retaining, reskilling, motivating, and managing their people. HR indeed is the key to maintaining the right mix of talent needed for an organization to grow and reach its goals. MBA at IIT Kanpur provides its students with an opportunity to develop deep insights and expertise in the core and advanced HRM and the integration of technology into it.

OPERATIONS

For any business to run profitably, it needs all its prime operations and functions executed with utmost quality and effectiveness. MBA at IIT Kanpur aims to develop students to build an understanding of how organizations can structure their processes to support various strategic objectives and also of how operational choices impact other functions within the organization. (In the context of manufacturing, production, and service rendering, the program trains the students in the aspects of supply chain, quality control, and optimization of systems and processes to prepare them for the industry.)
